Indicative Key Information – Valor 49912894 – 12 September 2019

JB TRACKER CERTIFICATE ON A BOND BASKET

(the “Products”)

SSPA SWISS DERIVATIVE MAP®/ EUSIPA DERIVATIVE MAP® TRACKER CERTIFICATE (1300)

PARTICIPATION ON BOND BASKET – CASH SETTLEMENT – CHF

This document is for information purposes only and until the Initial Fixing Date the terms are indicative and may be amended and is only available in English.

A Product does not constitute a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes. Therefore, it is not subject to authorisation by the Swiss Financial Market Supervisory Authority FINMA (“FINMA”) and potential investors do not benefit from the specific investor protection provided under the CISA and are exposed to the credit risk of the Issuer.

I. Product Description

Terms

Swiss Security Number (Valor)	49912894
ISIN	CH0499128947
Issue Size	up to 2,500 Products (CHF 25,000,000, may be increased/decreased at any time)
Subscription Period	17 September 2019 – 27 September 2019, 12:00 CET
Issue Currency	CHF
Settlement Currency	CHF
Issue Price	CHF 10,000 (per Product; including the Distribution Fee)
Denomination	CHF 10,000.00

Initial Fixing Date

27 September 2019, being the date on which the Initial Level and the Weight are fixed.

Issue Date/Payment Date

4 October 2019, being the date on which the Products are issued and the Issue Price is paid.

Final Fixing Date

20 December 2022, being the date on which the Final Level will be fixed.

Last Trading Date

20 December 2022, being the last date on which the Products may be traded.

Final Redemption Date

27 December 2022, being the date on which each Product will be redeemed at the Final Redemption Amount.

Composition of the Basket on the Initial Fixing Date

The basket consists of 8 bonds.

Rating ²	Coupon	Issuer	Currency	Maturity	ISIN	Weight ¹	Initial Notional per Bond	Initial Level
B+	5.5	ITAU UNIBANCO HLDG SA/KY	USD	06.08.2022	US46556MAH51	12.5%	TBD	TBD

¹ upon Fixing

² The Standard & Poor's Rating refers to the Issue Date and can change during the lifetime of the Product

Redemption

Final Redemption	Unless previously redeemed, repurchased or cancelled, the Issuer shall redeem each Product on the Final Redemption Date by payment of a cash amount equal to the Final Redemption Amount to the Holder thereof.
Final Redemption Amount	<p>A cash amount equal to the Final Basket Level plus the Cash Component minus the FX Hedging Effect calculated by the Calculation Agent in accordance with the following formula:</p> $\text{Final Basket Level} + \text{Cash Component} - (\sum_{t=1}^n \text{FX Hedging Effect}_t)$ <p>Where, n = the total number of FX Hedges</p> <p>The Issuer has at its sole discretion the right to redeem the Final Redemption Amount fully in cash or fully physical delivery of bonds (redemption in kind) or partially in cash and partially in physical delivery of bonds. In such a case the Issuer will redeem the corresponding bonds after covering any unwinding costs or changes et al. as soon as possible in accordance with the product documentation on a best efforts basis.</p>
FX Hedging Effect:	The hedge costs incurred through the interest rate differential between the involved currencies (underlying currency and Issue Currency) at a point in time t as determined by the Calculation Agent and the imperfection of the hedges due to the fact that the hedge-rebalancing frequency is not continuous. The performance of the hedge at a point in time t as determined by the Calculation Agent, to neutralize the underlying currency risk, can be positive or negative.
Currency Risk	Currency risk is hedged by holding a short position in the currency of the Underlying with the size of the market value of the Underlying and by holding a corresponding long position in the denomination currency of the Product. The FX hedge will be rebalanced monthly. The investors achieve a maximum possible participation in the actual performance of the price of the respective underlying for investors, without any financial impairment were the exchange rates to decline but also without any additional opportunities for gains were the exchange rates to rise.
Settlement Type	Cash settlement
Reinvestment of the Returns	The Issuer (re-)invests any returns into the corresponding bond. All reinvestments due to interest payments will be effected after receipt of the respective payments, net of any tax or retention.
Hedging Period	<p>Up to a maximum of 10 (ten) scheduled trading days under normal trading conditions and on a best effort basis as determined by the Issuer, unless in the opinion of the Issuer, such period shall be extended for the due execution or the unwinding of the related hedging arrangements in respect of the Products.</p> <p>For the Initial Level, the Hedging Period starts from (and including) the Initial Fixing Date. For the Final Level, the Hedging Period starts from (and including) the Final Fixing Date. All prices and amounts are determined at the sole and absolute discretion of the Issuer.</p>

Final Basket Level	The sum of the product (calculated for each Underlying (<i>i</i>)) of the Final Level of each Underlying (<i>i</i>) multiplied by the Final Notional of each Underlying (<i>i</i>), i.e.: $\sum_{i=1}^n (Final\ Level_i * Final\ Notional_i)$ <p>where: <i>n</i> = the total number of Underlyings.</p>
Initial Level	A fair value price for each individual bond (as dirty price in %) as determined by the Issuer, at his sole discretion. The fair value price shall be a weighted average execution price (net of any costs, charges etc.) achieved by the Issuer when performing his hedging activities related to the issuance of the Products, on a best effort basis. The prices will be calculated at the end of the relevant Hedging Period.
Final Level	A fair value price for each individual bond (as dirty price in %) as determined by the Issuer, at his sole discretion. The fair value price shall be a weighted average execution price (net of any costs, charges etc.) achieved by the Issuer when performing his hedging activities related to the unwinding of the Products, on a best effort basis. The prices will be calculated at the end of the relevant Hedging Period.
Final Notional	Final Notional of each Bond <i>i</i> (equal to the Initial Notional per Bond plus the following reinvestments)
Cash Component	Proceeds from expired or called bonds minus Accumulated Fees including accrued and compounded interest using the Refinancing Rate minus any Interest Amount paid (converted to the Issue Currency at the then prevailing exchange rate),
Accumulated Fees	Administration Fee and Amortization Fee.
Administration Fee	0.25% p.a. of the Denomination.
Amortization Fee	0.0256% per month of the Denomination, for the first 39 calendar months of the lifetime of the Product from Issue Date.
Refinancing Rate	The internal refinancing rate, as determined by the Calculation Agent.

Coupon

Interest Amount	0.60% p.a. of the Denomination, paid annually
Interest Payment Dates	20 December 2019, 20 December 2021, 20 December 2022
Business Day Convention	30/360, modified following, unadjusted

Swiss Taxation

Stamp duty	Secondary market transactions of the Product are in principle subject to Federal turnover tax if a Swiss securities dealer is a party to the transaction or acts as intermediary thereto.
Withholding tax	No Swiss Federal withholding tax.
Income tax	For individuals residing in Switzerland and holding the Product as private asset, the difference between the redemption or sales price and the purchase price as well as any coupon are subject to Swiss income tax ('reine Differenzbesteuerung'). Taxable amounts in foreign currencies have to be converted in CHF at the relevant daily conversion rates.

The aforementioned tax description is based on the relevant tax laws and regulations of the tax authorities valid at the time of launch of this issue. These laws and regulations may change at any time, possibly with retroactive effect. Furthermore the tax treatment may depend on the personal situation of the investor and may be subject to change in the future. This information is not purported to be a complete description of all potential tax effects. Potential investors are advised to consult their tax advisors to determine the special tax consequences of the purchase, ownership or disposition of the Product.

General Tax Information

Transactions and payments related to this product may be subject to additional (foreign) transaction taxes and or withholding taxes such as US withholding taxes pursuant to FATCA (Foreign Account Tax Compliance Act) or the Section 871(m) of the US Internal Revenue Code. Any amounts due, shall be paid net of such taxes. The issuer is not obliged to pay additional amounts with regard to amounts so withheld.

Product Description

The Products are financial instruments which allow the investor to benefit from an unlimited participation in any positive performance of the Underlyings. The Products reflect movements in the value of the basket of the Underlyings. Therefore, if the value of the basket

of the Underlyings increases, the investor proportionally participates in the increase in the value of the basket of the Underlyings. If the value of the basket of the Underlyings decreases, the investor proportionally participates in the decrease in the value of the basket of the Underlyings. The Products are linked to multiple Underlyings with a basket feature. Therefore, the performance of each Underlying in accordance with its weight has to be taken into account for the determination of the Final Redemption Amount.

Product Documentation

The complete and legally binding terms and conditions of the Products are set forth in the base prospectus for the issuance of Participation Products of Bank Julius Baer & Co. Ltd. (the "Bank"), dated 17 June 2019, as supplemented from time to time (the "Base Prospectus") and the relevant final terms prepared in relation to the Products (the "Final Terms"). The Base Prospectus and the Final Terms may be obtained free of charge from Bank Julius Baer & Co. Ltd., Bahnhofstrasse 36, 8001 Zurich, Switzerland.

This document is designated for distribution and use in Switzerland. Neither the Issuer nor any other person assumes any responsibility for the compliance of this document with any applicable law and regulations in any other jurisdiction than Switzerland.

Details

Issuer	Bank Julius Baer & Co. Ltd., Guernsey Branch (Rating: Moody's A2) (Prudential Supervision: by the Swiss Financial Market Supervisory Authority FINMA)
Lead Manager	Bank Julius Baer & Co. Ltd., Zurich

Quotation	The Products are traded in units and are booked accordingly.
Clearing System	SIX SIS AG
Form	Uncertificated Securities
Governing Law / Jurisdiction	Swiss Law / Zurich 1, Switzerland

II. Profit and Loss Prospects

The investor participates directly in any increase of the value of the basket of the Underlying(s). The potential return on the Products is not capped.

If the value of the Underlyings decreases, the Final Redemption Amount may be substantially lower than the Issue Price. The potential loss associated with an investment in such

Products is linked to the negative performance of the Underlyings. Therefore, a substantial or total loss of the invested amount in the Products is possible, although any such loss is limited to the invested amount.

III. Significant Risks for Investors

The following risk disclosure cannot disclose all the risks associated with an investment in the Products. Therefore, potential investors in Products should consult the Base Prospectus and the Final Terms and their client advisor as to the product specific risks before making an investment decision.

1. Issuer Risk

Investors bear the credit risk of the Issuer. The Products' retention of value is dependent not only on the development of the value of the Underlying, but also on the creditworthiness of the Issuer, which may change over the term of the Product. The credit rating of the Issuer is not a guarantee of credit quality. In case of the Issuer's insolvency or bankruptcy the investors in the Products may lose their entire investment.

The Products are direct, unconditional, unsecured and unsubordinated obligations of the Issuer. If the Issuer were to become insolvent, claims of investors in Products will rank equally in right of payment with all other unsecured and unsubordinated obligations of the Issuer, except such obligations given priority by law. In such a case, investors in Products may suffer a loss of all or a portion of their investment therein, irrespective of any favourable development of the other value determining factors, such as the performance of the Underlying(s).

The Products do not constitute bank accounts or deposits at Bank Julius Baer & Co. Ltd. The Products are less liquid than bank accounts or deposits and bear higher risks. An investment in Products will not be covered by any compensation or insurance scheme (such as a bank deposit protection scheme) of any government agency of Switzerland or any other jurisdiction and Products do not have the benefit of any government guarantee. Products are the obligations of the Issuer only and holders of Products must look solely to the Issuer for the performance of the Issuer's obligations under such Products. In the event of the insolvency of the Issuer, an investor in Products may lose all or some of its investment therein.

Bank Julius Baer & Co. Ltd. is a bank pursuant to the Federal Banking Act (BA; SR 952.0) and a securities dealer pursuant to the Federal Act on Stock Exchanges and Complex Products Trading (SESTA; SR 954.1) subject to the prudential supervision by the Swiss Financial Market Supervisory Authority FINMA in Berne (Laupenstrasse 27, CH-3003 Berne; <http://www.finma.ch>).

The Issuer, Bank Julius Baer & Co. Ltd, Guernsey Branch (a branch of Bank Julius Baer & Co. Ltd., Zurich, founded in Switzerland and under the supervision of the Swiss Financial Market Supervisory Authority FINMA), is licensed in Guernsey under the Banking Supervision (Bailiwick of Guernsey) Law 1994 and The Protection of Investors (Bailiwick of Guernsey) Law 1987. Neither the Guernsey Financial Services Commission (P.O. Box 128, Glatigny Court, Glatigny Esplanade, St. Peter Port, Guernsey, Channel Islands, GY1 3HQ) nor the States of Guernsey Policy Council takes any responsibility for the financial soundness of the Issue or for the correctness of any of the statements made or opinions expressed with regard to it.

2. Product Risks

An investment in Products entails certain risks, which vary depending on the specific type and structure of the relevant Products and the relevant Underlying(s).

An investment in Products requires a thorough understanding of the nature of Products. Potential investors in Products should be experienced with respect to an investment in complex financial instruments and be aware of the related risks. A potential investor in Products should determine the suitability of such an investment in light of such investor's particular circumstances. In particular, a potential investor in Products should:

- have sufficient knowledge and experience to make a meaningful evaluation of Products, the merits and risks of investing in Products and the information contained in the Base Prospectus and the applicable Terms and Conditions;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of such investor's particular financial situation, an investment in Products and the impact the relevant Products will have on such investor's overall investment portfolio;
- have sufficient financial resources to bear all the risks of an investment in the relevant Products;
- understand thoroughly the Terms and Conditions applicable to the relevant Products and be familiar with the behaviour of the relevant Underlying(s) and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect such investor's investment and ability to bear the applicable risks of an investment in Products until their redemption; and
- recognise that it may not be possible to dispose of Products for a substantial period of time, if at all, before their redemption.

The trading market for securities, such as Products, may be volatile and may be adversely impacted by many events.

Products are complex financial instruments. Investors generally purchase complex financial instruments as a way to enhance yield with an understood, measured, appropriate addition of risk to their overall investment portfolios. A potential investor should not invest in Products unless such investor has the expertise (either alone or with the help of a financial adviser) to evaluate how the relevant Products will perform under changing conditions, the resulting effects on the market value of the relevant Products and the impact such an investment will have on such investor's overall investment portfolio.

Risk of total loss

Products involve a high degree of risk, and prospective investors in the Products should recognise that, under certain circumstances, Products may have a redemption value of zero. Prospective investors should therefore be prepared to sustain a partial or total loss of the amount of their investment therein.

Unpredictable Market Value for Products

During the term of a Product, the market value of, and the expected return on, such Product may be influenced by many factors, some or all of which may be unpredictable. Many economic and market factors will influence the market value of a Product. The Issuer expects that, generally, the value and volatility of the Underlying(s) on any day will affect the market value of such Product more than any other single factor. However, a potential investor should not expect the market value of a Product in the secondary market to vary in proportion to changes in the value of the Underlying(s). The return on a Product (if any) may bear little relation to, and may be much less than, the return that the investor therein might have achieved if such investor had invested directly in the Underlying(s).

The market value of, and return (if any) on, a Product will be affected by a number of other factors, which may be unpredictable or beyond the Issuer's control, and which may offset or magnify each other, including, without limitation:

- supply and demand for such Product, including inventory positions of any other market maker;
- the expected frequency and magnitude of changes in the market value of the Underlying(s) (volatility);
- economic, financial, political or regulatory events or judicial decisions that affect the Issuer, the Underlying(s) or the financial markets generally;
- interest and yield rates in the market generally;
- the time remaining until the Final Redemption Date;
- if applicable, the difference between the Level or Commodity Reference Price, as applicable, and the relevant threshold specified in the applicable Terms and Conditions;
- the Issuer's creditworthiness, including actual or anticipated downgrades in the Issuer's credit ratings; and
- dividend payments on the Underlying(s), if any.

Some or all of these factors may influence the price of a Product. The impact of any of the factors set forth above may enhance or offset some or all of any change resulting from another factor or factors.

In addition, certain built-in costs are likely to adversely affect the market value of Products. The price at which the Issuer will be willing to purchase Products from a holder in secondary market transactions, if at all, will likely be lower than the original Issue Price.

Exposure to the performance of the Underlyings

Each Product will represent an investment linked to the performance of the Underlying(s) and potential investors should note that any amount(s) payable or other benefit to be received under the Products will generally depend upon the performance of the Underlying(s). The past performance of the Underlyings is not indicative of the future performance.

Exchange Rate Risk

The Underlying(s) may be denominated in a currency other than that of the Issue Currency or, if applicable, the Settlement Currency for such Product, or the Underlying(s) may be denominated in a currency other than, or the Issue Currency or, if applicable, the Settlement Currency may not be, the currency of the home jurisdiction of the investor in such Product. Exchange rates between currencies are

determined by factors of supply and demand in the international currency markets, which are in particular influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Therefore, fluctuations in exchange rates may adversely affect the market value of a Product or the value of the Underlying(s).

Secondary Market

Products may have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Products easily or at prices reasonably acceptable to them.

Under normal market circumstances, the Issuer will endeavour to provide a secondary market for Products, but is under no obligation to do so. Upon investor demand, the Issuer will endeavour to provide bid/offer prices for products, depending on actual market conditions. There will be a price difference between bid and offer prices (spread).

Early Redemption

The investors must be aware of a possible early redemption of the Product.

Upon the occurrence of an extraordinary event, the Calculation Agent and the Issuer, acting together, have the right to, among other things, early redeem the relevant Products. If the Issuer exercises such early redemption right(s), investors should be aware that the early redemption price may be considerably lower than the Issue Price (or, if different, the price the relevant investor paid for such product) and/or the Final Redemption Amount that would otherwise have been paid on the Final Redemption Date.

Further product specific risks

Investors should be aware that an investment in such Products generally results in a loss upon redemption if the value of the Underlyings decreases. The potential loss associated with an investment in such Products is linked to the negative performance of the Underlying.

Investors should be aware that the return on the Products may not reflect the return such investor would realise if he or she actually owned the relevant Bond(s). For example, investors in Products linked to a Bond will not receive any interest payments on such Bond during the term of such Products. Accordingly, an investor in any such Products may receive a lower payment (if any) upon redemption of such Products than such investor would have received if he or she had invested in the Bond(s) directly.

Investors should be aware that the Final Redemption Amount will be adjusted for a management/structuring fee and/or a basket monitoring fee, which costs and fees will reduce the Final Redemption Amount to be received by the investor.

The calculation of the Final Redemption Amount for the Products that are linked to a basket of bonds will generally not be based on the closing levels of the Underlying(s) on the Final Fixing. Instead, the Final Redemption Amount will be based on the average net sale price and the average net purchase price for each Underlying contained in the basket on the Final Fixing Date, as determined by the Calculation Agent. If any of the Underlying(s) are illiquid, the Calculation Agent may only be able to effect the sale of such Underlying on unfavourable terms. In such event, the Final Redemption Amount will be adversely affected.

Risk relating to the basket feature

The unfavourable performance of a single Underlying included in the Basket may result in an unfavourable performance of the Basket as a whole despite the favourable performance of one or more of the other Underlying(s) included in the Basket.

Risks relating to the underlying bonds

Bonds constitute debt obligations of the Bond Issuer. Products linked to Bonds are therefore linked to the default risk of the Bond Issuer.

In addition, the performance of the Bond(s) is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors and Bond Issuer-specific factors, such as earnings position, market position, risk situation, shareholder structure and distribution policy.

Products linked to Bond(s) do not represent a claim against the relevant Bond Issuer and investors in such Products will not have any right of recourse under such Products to such Bond(s) or the relevant Bond Issuer. Products linked to Bonds are not in any way sponsored, endorsed, or promoted by the

relevant Bond Issuer and the relevant Bond Issuer has no obligation to take into account the consequences of its actions on any investor in such Products. Accordingly, the relevant Bond Issuer may take any actions in respect of the Bond(s) without regard to the interests of the investors in Products linked thereto, and any of these actions could adversely affect the market value of such Products. The relevant Bond Issuer will have no involvement in the offer and sale of Products linked to Bond(s) and will have no obligation to any investor in such Products. An investment in Products linked to Bond(s) does not result in any right to receive information from the relevant Bond Issuer in respect of the Bonds or distributions on the Bond(s).

Further Information

For further details on the Product related risks please consult the risk disclosure brochure "Special Risks in Complex Products Trading" (Edition 2008) which is available on the Swiss Bankers Association's website: <http://www.swissbanking.org/en/home/shop.htm> or may be obtained from your client advisor upon request.

IV. Important Additional Information

If the Product is not listed on SIX Swiss Exchange, this document constitutes the simplified prospectus for the Products pursuant to Article 5 of the Swiss Federal Act on Collective Investment Schemes ("CISA") and is of summary nature with a view to include the information required by Article 5 CISA and the Guidelines of the Swiss Bankers Association in Relation to the Information for Investors in Structured Products. The simplified prospectus may be obtained free of charge from Bank Julius Baer & Co. Ltd., Bahnhofstrasse 36, 8001 Zurich, Switzerland.

This document does not constitute an offer or invitation to enter into any type of financial transaction and the Issuer has no obligation to issue the Products. This document is not the result of a financial analysis and therefore, is not subject to the "Directives on the Independence of Financial Research" from the Swiss Bankers Associations. The content of this document does therefore not fulfill the legal requirements for the independence of financial analyses and there is no restriction on trading in this regard.

Conflicts of Interest

The Issuer and affiliated companies may from time to time enter into transactions for their own account or for the account of a client that are related to the Products. These transactions may not be for the benefit of the investor and may have positive or negative effects on the value of the Underlying(s) and thus on the value of the Products. Companies affiliated to the Issuer may also become counterparties in hedging transactions. Accordingly, conflicts of interest may therefore arise with regard to obligations relating to the ascertainment of the values of the Products and other related determinations both among affiliated companies of the Issuer and between these companies and the investors. In addition, the Issuer and affiliated companies may exercise a different function, if applicable, in relation to the products, for example as calculation agent, paying agent or administrative office.

Distribution Compensation/Distribution Allowances from and to Third Parties

In connection with the Products, the Issuer and/or its affiliates may pay to third parties or to each other, or receive from third parties one-time or recurring remunerations (e.g. placement or holding fees). Such remunerations to affiliates or third parties, if any, are included in the Issue Price. Investors may request further information from Bank Julius Baer & Co. Ltd. By receiving such payments in connection with the Products, the

interest of the Issuer or such affiliate or the third party, as the case may be, may conflict with the interest of the investor in the Products.

Amendments to the Product Conditions

Information regarding unforeseen changes to the conditions of the Product which may arise during the lifetime of the Products are not subject to this document but may be obtained from your client advisor upon request and will be published on: <http://derivatives.juliusbaer.com>; corporate actions and/or http://www.six-swiss-exchange.com/news/official_notices/search_en.html. This document will not be amended throughout the term of the Products.

Selling Restrictions

The Products were not registered with the local regulator and are not publicly distributable outside of Switzerland. The Products may not be offered in any jurisdiction in circumstances that would result in the Issuer being obliged to register any further prospectus relating to the Products in that jurisdiction. Potential purchasers of the Products are advised to read the detailed selling restrictions in the Base Prospectus and the Final Terms. Potential purchasers of the Products should seek specific advice before purchasing or selling-on a Product. Particular attention should be paid to the selling restrictions set out in the Base Prospectus and the Final Terms with respect to the following jurisdictions: European Economic Area (EEA), United States of America, United Kingdom, Guernsey, The Netherlands, Italy, Hong Kong, Singapore, Dubai International Financial Centre, United Arab Emirates, Kingdom of Bahrain, Israel, Uruguay, Panama, Bahamas, Lebanon. These restrictions must not be taken as conclusive guidance as to whether the Products can be sold in a jurisdiction.
